## 200 MW air energy storage project

What is Hydrostor's Silver City energy storage centre?

Image credit: hydrostor.ca The Minns Labor Government has approved Hydrostor's Silver City Energy Storage Centre in Broken Hill, a compressed air energy storage system that is the first of its kind in Australia, in a move aimed at strengthening the region's energy security.

What is Silver City energy storage centre?

Its flagship project is the 200 MW Silver City Energy Storage Centre, which will deliver 1,600 megawatt-hours (MWh), or at least 8 hours, of energy storage for Broken Hill and surrounding areas.

Will Australia's coal-fired power stations need a compressed air energy storage system?

This need will quickly grow as Australia's fleet of coal-fired power stations approach end of life and close. Hydrostor's compressed air energy storage (CAES) technology is a promising LDES technology with potential to provide 8+ hours of storage duration.

What is compressed air energy storage (CAES)?

Hydrostor's compressed air energy storage (CAES) technology is a promising LDES technology with potential to provide 8+ hours of storage duration. While traditional CAES is a mature technology that has been developed at utility scale (100+MW) it is reliant on natural gas for power generation.

Its flagship project is the 200 MW Silver City Energy Storage Centre, which will deliver 1,600 megawatt-hours (MWh), or at least 8 hours, of energy storage for Broken Hill and ...

Hydrostor has penned a deal with Australian miner Perilya to build a 200 MW/1,600 MWh advanced compressed air energy storage facility in a disused mine cavity ...

Canada's Hydrostor has secured planning approval from the government of New South Wales to install a 200-MW/1,600-MWh compressed air energy storage facility at a disused silver mine cavern ...

Canada's Hydrostor has secured planning approval from the government of New South Wales to install a 200-MW/1,600-MWh compressed air energy storage facility at a ...

Safe, Reliable, and Clean Long Duration Energy Storage for New South Wales Silver City is a 200 MW Advanced Compressed Air Energy Storage (A-CAES) facility that is under late-stage ...

First-of-its-kind energy storage project in Australia to provide critical energy stability for NSW  
BROKEN HILL, AUSTRALIA, Dec. 18, 2023 (GLOBE NEWSWIRE) -- ...

Other investors include Goldman Sachs Alternatives, and CPP Investments. The new \$200M investment will support Hydrostor's 500 MW / 4,000 MWh Advanced Compressed Air Energy

---

Storage (CAES) ...

The Silver City Energy Storage ("Silver City") is an Advanced Compressed Air Energy Storage project capable of 200 MW generation for 8 hours duration (1,600 MWh).
