
300kw solar container battery

$300KW = 537A \cdot P = 1.732UI \cos\phi \Rightarrow I = P / (1.732U \cos\phi) = 300 / (1.732 \times 0.38 \times 0.85) = 537A \cdot 0.85300 \dots$
