
Cape Verde solar Module Production Project

What is the largest solar power plant in Cape Verde?

Largest solar power plant in Cape Verde on Sal Island was inaugurated by Cape Verde's Ministry of Energy and Commerce that will help the country to save energy. This is true given that Aguas de Ponta Preta developed a 5 MW solar plant in Santa Maria that is quite significant to the country's renewable energy plan.

Why does Cape Verde need a solar project?

Project is located in Santa Maria on the island of Sal. This is why the completion of the solar installation also highlights Cape Verde's desire to strengthen its renewable energy capacity. Tourism is among the leading sectors in many countries, meaning that it is vital for energy consumption not to lead to carbon footprints.

What will Cape Verde's new solar plant do?

The new solar plant will make Cape Verde one of the leading nations in the use of renewable energy within the region thus laying the foundation for what could be a more sustainable form of energy besides the traditional dependence on fossils.
