
Construction of Boston supporting energy storage project

Which building will house the Bess project?

A render of the building that would house the BESS project. Image: Flatiron Energy / System operator ISO New England has given the go-ahead for a 300MW/1,200MWh indoor BESS located in Boston, Massachusetts under development by developer and IPP Flatiron Energy.

Is ISO New England planning a 300MW Bess in Boston?

System operator ISO New England has given the go-ahead for a 300MW/1,200MWh indoor BESS located in Boston, Massachusetts under development by developer and IPP Flatiron Energy. ISO New England approved a proposed plan application associated with the project in the form of a letter published on the system operator's website on 6 January, 2025.

How much energy storage does Massachusetts have?

The act requires all electric distribution companies (EDCs) to report annually on energy storage deployment within their territories no later than February 15 each year. It was reported last year that Massachusetts had a cumulative storage capacity of 569MWh, with an additional 8,806 MWh in the development pipeline.

How much storage capacity does Massachusetts have?

It was reported last year that Massachusetts had a cumulative storage capacity of 569MWh, with an additional 8,806 MWh in the development pipeline. Plus Power's 150MW/300MWh Cranberry Point BESS located in the Town of Carver is expected to make up a large proportion of the 1GWh total, with commercial operations scheduled for summer this year.

Energy Storage Support Structure: The Complete Guide to BESS Frameworks In the rapidly evolving battery energy storage system (BESS) landscape, the term "support structure" is ...

Flatiron Energy LLC, doing business as (d/b/a) Lite Brite Storage LLC (the "Proponent"), is proposing to construct a new two-storied battery energy storage facility at 35 Electric Avenue in the Brighton neighborhood of ...

The company has offices in Boston, New York City, and Boulder, Colorado and is currently developing energy storage systems in the Greater Boston, Connecticut, and New ...

Boston's first Battery Energy Storage System, proposed for construction in Brighton at 35 Electric Ave., has generated a wave of resident backlash to underdeveloped regulation ...

The Cross Town Energy Storage project commenced construction in April 2024 and is now the largest battery coming online in the region. The Cranberry Point facility, under construction since December ...

Flatiron Energy's groundbreaking 300-MW battery storage project in Boston aims to enhance

reliability and champion environmental justice by 2028. Powering a greener future ...

Trimount Energy Storage Facility FACT SHEET Jupiter Power is developing an energy storage Project Location project in Everett, Massachusetts. The Trimount Energy ...

This utility-scale battery project absorbs excess energy when customer demand is lower and stores it for use during times of peak demand.
