How long does it take to ship a solar container?

Standard solar container models can be manufactured and ready to ship in as little as 4-6 weeks. Customized configurations can take up to 8-10 weeks, with shipping times varying by destination. Do you offer after-sales support for mobile solar PV containers?

Where is harvested energy stored?

Harvested energy is stored in Lithium LiFePO4 battery banks with its own programmed BMS (Battery Management System).

Why should you choose a modular energy storage container?

Advanced monitoring systems and IoT integration ensure optimal performance and remote management capabilities. The modular design allows for easy expansion, with the option to expand the battery storage system by 100 - 500kWh, making our energy storage container perfect for meeting growing energy demands.
