
Derivation of three-phase inverter

Hi Hibou and welcome, Nice start Generally, yes there are rules for derivating from Arabic roots, it's called ??????? but they're many, depending on the stem (3,4,5 letters) and ...

Yes, I wondered about "burn" as a derivation, though the word has missed out a lot of country between here and Scotland. The word is common in southern place-names but ...

(Might be a dumb question, but I am curious, so I'm asking about it) So, the etymology of "minute" is from the "minuta" part of pars minuta prima "first diminished/small ...

I think the argument here is probably that a form historically mostly used for characteristic adjectives and agent nouns referring to people has become a way of forming ...

I bet he didn't know its derivation. There are very few examples of rhyming slang where the full rhyme is routinely said, and "half-inch" (= pinch, meaning "steal") is the only one ...

Po/Opo is a sign of respect and we've been taught to say the words to the elderly. Po is a contraction of Apo (accented on the first syllable) so whenever we say "Ano po iyon?" ...

Hello. In Bruce Ingham's Najdi Arabic ??? is said to be used in the "northern bedouin type", and is suggested to be derived from ?? ???. Do you think the derivation is possible?

I'm curious to know the 3-letter root for the word taqwa (???) and what transformations to the root lead to this final form. Any analogues from other roots will be very ...
