
Dhaka Energy Storage Project Subsidy

Can energy storage be used in Bangladesh?

Concluded in May 2023, the assignment assessed available energy storage technologies, evaluated the role of energy storage in the current grid conditions, identified potential storage locations, analysed energy storage requirements under variable renewable energy (VRE) integration, and developed a roadmap for energy storage in Bangladesh.

What's in the Bangladesh Power Sector Roadmap?

The roadmap highlights specific use-cases for consideration in the Bangladesh power sector over three different future time horizons. It also includes a summary of indicative policy and regulation actions and interventions that may be considered to enable the deployment of energy storage within the defined time horizons.

What can be done about grid connected energy storage in Bangla-Desh?

Limited experience and knowledge of grid connected energy storage in Bangla-desh. Early-stage pilot programmes such as the planned 2MW grid connected BESS funded by the Asian Development Bank (ADB) would further support capacity building and knowledge transfer. 3.3.

Can distribution companies provide electricity solutions for displaced communi-ties in Bangladesh?

There are no service obliga-tionsfor distribution compa-nies to provide electricity solu-tions for displaced communi-ties in Bangladesh. Distribution companies and non-governmental organisations (NGOs) (in the absence of ser-vice area obligations) would be key institutional stakeholders for the deployment of this applica-tion.

This report includes an overlay of key enablers for energy storage applications with tentative time horizons for the development and adoption of the enabling environment in Bangladesh. This ...
