
Does Zambia have 5G base stations

Why is MTN launching 5G services in Zambia?

" In Zambia, we see great opportunities across many sectors, and in the mining industry in particular." MTN Zambia CEO Bart Hofker said MTN's 5G services had been activated to cover about 65% of the population in the cities of Lusaka, Kitwe and Ndola as well as parts of Chingola, Solwezi and Kalumbila.

Does the Gambia have 5G?

Currently, none of the network operators in the Gambia are providing 5G services. Africell and QCELL are the only network operators currently providing 4G coverage and are both focused on expanding their 4G network nationwide. Internet connectivity into The Gambia is managed by Gamtel, with bandwidth sold to other ISPs.

Will MTN Zambia reach 100% 5G coverage in 2023?

This translates into about 15% of the population. "We plan to reach 100% 5G coverage in Lusaka, Kitwe and Ndola by the middle of 2023, while gradually expanding the 5G network to other locations," he said, adding that MTN Zambia customers need a 5G-enabled device to connect to the 5G network where it is available.
