## East Asia solar module equipment price

How much does a PV module cost in China?

According to price analysis firm InfoLink: "Since March, the spot price of n-type modules in China has soared from RMB0.7/W to RMB0.73/W. Quotes from leading manufacturers are approaching the RMB0.75/W mark." The results of the China Datang Group's 2025-2026 PV module framework. Image: Datang.

Why do solar modules cost so much?

However, as the primary cost component of photovoltaic modules, the price of solar cells plays a decisive role in module pricing. Due to the oversupply of polysilicon in earlier periods, prices have been under sustained pressure since 2023, even falling below cost levels in the first half of 2024.

How much will PV modules cost in 2025?

On 11 March 2025, the results of the China Datang Group's 2025-2026 PV module framework purchase tender were announced, with the spot price of n-type modules increasing from RMB0.7/W (US\$0.097/W) to RMB0.73/W (US\$0.1/W), and some modules priced as high as RMB0.75/W (US\$0.11/W).

Which country has the largest electricity market in Southeast Asia?

Vietnam is expected to be the largest market in Southeast Asia due to its increasing demand for electricity and the rising number of renewable energy installations, and their connection to the country's grid.

The current round of photovoltaic module price adjustments has imposed significant operational pressure on industry players. Leading companies, with their high R&D ...

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends ...

From the perspective of photovoltaic industry capacity, Southeast Asia is undoubtedly the largest production region outside of China. As of the first quarter of 2024, the ...

China's latest tender results show the spot price of n-type modules increasing from RMB0.7/W to as much as RMB0.75/W.

From the perspective of photovoltaic industry capacity, Southeast Asia is undoubtedly the largest production region outside of China. As of the first quarter of 2024, the total capacity of photovoltaic modules ...

Explore 2025 solar module price dynamics: Why tariffs caused 7.7% price hikes in Southeast Asian imports vs. cheaper alternatives. Discover peak demand periods and ...

Southeast Asia Solar Energy Market Size & Share Analysis - Growth Trends And Forecast
