
Egypt Mobile solar container energy storage system Project

Does Scatec ASA have a battery storage facility in Egypt?

The Borup battery storage facility,...Scatec ASA has reached financial close for the "Obelisk" hybrid solar and battery storage project in Egypt. The 1.1 GW solar plus 100 MW/200 MWh battery energy storage system (BESS) project is backed by non-recourse financing of USD 479.1 million.

How much solar power will Egypt have in 2026?

The second phase, comprising 564 MW of solar, is scheduled for the second half of 2026. Electricity from the project will be sold under a USD-denominated 25-year Power Purchase Agreement (PPA) with the Egyptian Electricity Transmission Company (EETC), supported by a sovereign guarantee.

How many MW solar & battery storage will be built in 2026?

The project will be constructed in two phases. The first phase of 561 MW solar + 100 MW/200 MWh battery storage is targeted to reach commercial operational date (COD) in the first half of 2026 and the second phase of 564 MW solar in the second half of 2026.

The first phase of the project is scheduled for commercial operation during the first half of next year and the site is backed by a 25-year power purchase agreement (PPA) from ...

The project is located in the Kom Ombo area of Aswan, Egypt, and was built as an expansion of an existing 500 MW PV power plant. The energy storage station has a capacity ...

Oslo/Cairo, 05 May 2025: Scatec ASA has commenced construction of its 1.1 GW Obelisk solar and 100 MW/200 MWh battery storage project in Egypt. The energy will be sold under a USD ...

Scatec CEO Terje Pilskog emphasised the project's significance in Egypt's energy transition, noting its capacity to deliver stable, cost-competitive electricity. The project uses ...

Scatec ASA has officially commenced construction on its landmark 1.1 GW Obelisk solar power project in Egypt, which includes an integrated 100 MW/200 MWh battery energy storage system.

Oslo/Cairo, 05 May 2025: Scatec ASA has commenced construction of its 1.1 GW Obelisk solar and 100 MW/200 MWh battery storage project in Egypt. The energy will be sold under a USD-denominated 25-year Power ...

The first phase of the project is scheduled for commercial operation during the first half of next year and the site is backed by a 25-year power purchase agreement (PPA) from the Egyptian Electricity ...

A \$700M consortium project in Aswan, Egypt, combining 1GW of solar power with 600MWh of battery storage, set to be Africa's largest single-asset renewable and storage ...
