
Energy storage emergency power supply in Antwerp Belgium

Is TotalEnergies developing a second battery storage project in Belgium?

Download the Press Release (PDF) Antwerp, April 3, 2024 - On the occasion of Belgian Energy Minister Tinne Van der Straeten's visit to TotalEnergies' Antwerp refinery battery storage project, the Company announced the development in Belgium of a second similar project. The new project will be developed on the site of TotalEnergies' depot in Feluy.

What is TotalEnergies' largest battery storage system in Europe?

The Antwerp platform now hosts TotalEnergies' largest battery storage system in Europe, with a capacity of 75 MWh and a power rating of 25 MW. Commissioned in 2024, the facility supports grid stability in Belgium and across Europe by helping to manage the intermittency of renewable energy sources.

Is Belgium a good place to invest in battery storage?

Belgium is one of the most active and mature grid-scale energy storage markets in Europe, with diversified opportunities for monetising battery storage via flexibility markets and a supportive regulatory regime.

What is the D-Stor battery storage project in Belgium?

A digital illustration of the D-STOR battery storage project in Belgium. Image: BSTOR. Project owners BSTOR and Energy Solutions Group have started building separate BESS projects totalling 440MWh of capacity in Belgium, following financial close, both of which will use Tesla Megapacks.

Lithium energy storage power supply production in Antwerp Belgium TotalEnergies has announced the launch of its largest battery storage project in Europe. Located at its Antwerp ...

ENGIE's decarbonization strategy in Belgium has reached a major milestone with the Fl#233;malle gas-fired power plant and the Vilvoorde battery park. These flagship projects ...

This project, located on the Antwerp refinery site, will benefit from the available land and the site's grid connection. It is a new step in TotalEnergies' development of battery ...

Introduction Stefan Louis is an energy storage consultancy based in Antwerp, Belgium, with decades of hands-on experience in battery technology and energy management. ...

Belgium's energy landscape is undergoing a transformation. With rising demand for renewable integration and grid stability, Uninterruptible Power Supply (BESS) solutions are becoming ...

The project also features a powersync distribution cabinet, enabling flexible switching between the grid, energy storage, and loads. It offers functions such as peak shaving and valley shifting, emergency ...
