
Funafoti Energy Storage Construction Project

Abstract Monolithic luminescent glass-ceramic (GC) embedded with fluoride-based nanocrystals (NCs) has drawn much attention as it is stable and possesses long fluorescent lifetime, while ...

Sci-Hub | Controllable synthesis of glass ceramics containing $\text{YF}_3:\text{Eu}^{3+}$ nanocrystals: Well-preserved Eu and prolonged lifetime. Journal of the American Ceramic Society | ...

Request PDF | Controllable synthesis of glass ceramics containing $\text{YF}_3:\text{Eu}^{3+}$ nanocrystals: Well-preserved Eu and prolonged lifetime | Monolithic luminescent ...

Article "Controllable synthesis of glass ceramics containing $\text{YF}_3:\text{Eu}^{3+}$ nanocrystals: Well-preserved Eu and prolonged lifetime" Detailed information of the J ...

In this paper, the transparent oxyfluoride glass-ceramic materials containing $\text{YF}_3:\text{Eu}^{3+}$ nanocrystals were fabricated via controlled ceramization of precursor xerogels at ...
