
Glass sun room and solar sun room

What is the difference between a sunroom and a solarium?

Let's explore the key differences between sunrooms, solariums, and greenhouses --and help you find the best fit for your lifestyle and goals. A sunroom invites the outdoors in through an expansive wall of windows while maintaining a traditional roof structure.

What is a sunroom & how does it work?

A sunroom invites the outdoors in through an expansive wall of windows while maintaining a traditional roof structure. This design allows it to blend seamlessly with the rest of the home, functioning more like an extension of your living room than a standalone glass enclosure.

Should you buy a solarium or a sunroom?

If you want ample sunlight and to feel immersed in nature, a solarium is ideal for you and your family. It also serves as a great year-round space for indoor gardening. On the other hand, if your budget allows, and you're looking for a multi-purpose space, a sunroom might be preferable.

What's the difference between a sunroom and a three-season sunroom?

Here's how they compare: Sunrooms: If well-insulated and connected to your HVAC system, sunrooms can serve as four-season sunrooms. Others may function better as three-season sunrooms with seasonal usability.
