
High quality 240 volt breaker in London

What is a 240V circuit breaker?

A circuit breaker 240V is also known as a double-pole circuit breaker. It is mainly used to protect a dedicated circuit for high-power appliances such as electric ranges, air conditioners, and more. This breaker is rated chiefly from 20 to 60 amps. Since a 240V breaker is as big as two 120v breakers, it takes up two places in a load center.

What types of load centre / distribution board / consumer circuit breakers are available?

We stock a wide range of Load Centre / Distribution Board / Consumer Circuit Breakers, such as 240V, 230V, 415VAC, 400V Load Centre / Distribution Board / Consumer Circuit Breakers from the world's top manufacturers: BG ELECTRICAL, WYLEX, CRABTREE & more.
