# How many energy storage projects are there in Ukraine

Does DTEK have energy storage facilities in Ukraine?

This was reported by DTEK's press service. The DTEK Group has connected six new energy storage facilities to the Ukrainian power grid, each with a capacity of 20 to 50 MW. The energy storage facilities were installed in the Kyiv and Dnipropetrovsk regions.

Will energy storage systems improve Ukraine's power grid?

DTEK reports that construction proceeded faster due to the need to complete the project before the onset of the autumn-winter period. Experts report that energy storage systems will provide Ukraine's power grid with additional resilience and stability.

How many gas storage facilities are there in Ukraine?

Ukraine has 12 gas storage facilities operated by Ukrtransgaz. Five of these are located in Western Ukraine, two in Central Ukraine and five in Eastern Ukraine. In addition one gas storage, the Hlibivske storage facility, operated by Chornomornaftogaz, is located in Crimea and currently is not controlled by Ukraine authorities.

Are Ukraine's energy reserves still untapped?

Yet, these enormous reserves of energy remain largely untapped. Today, Ukraine has a low annual reserve usage rate of about 2 percent. Moreover, more active exploration may yield previously undiscovered gas fields, which would further increase the overall volume of Ukraine's deposits.
