
Huawei Mongolia PV Module Project

The 1 million kW PV project developed by China Three Gorges Corporation and Inner Mongolia Energy Group in the north-central part of the Kubuqi Desert is a prime example.

Recently, HY SOLAR, in collaboration with China Zhongnan Engineering Corporation Limited (CPECC Zhongnan Design Institute), successfully delivered 70 MW of high-efficiency modules

...

On Dec 18, the second phase of the Inner Mongolia Huadian Tengger Clean Energy Transmission Base's photovoltaic project was connected to the grid.

The project has combined ecological restoration with PV generation across sandy terrain. Image Source: Huasun Energy Huasun Energy, a China-based manufacturer of high ...

Huasun Energy has supplied its high-efficiency heterojunction (HJT) solar modules to the 200MW Xinhua Forest Farm Desertification Control and Photovoltaic Integration Project ...

Huasun Energy has supplied its high-efficiency heterojunction modules to a 200MW Xinhua forest farm desertification control and PV integration project in Bayan Nur City, ...

In the Kubuqi Desert of Inner Mongolia, the State Power Investment Corporation used Huawei's smart PV solution to build a 300 MW solar power station. The power station ...

MAK Signs EPC Agreement with Huawei and HMN for Solar Power Plant Mongolyn Alt (MAK) LLC has signed an EPC turnkey contract with China's Huawei and HMN ...
