## Indonesia s largest solar glass company

Why is PV glass made in Indonesia?

As an offtaker of our PV-Glass-Grade Silica, the factory ensure a stable offtake and a secure supply chain for the silica refinery. Coupled with other raw materials like soda ash, alumina, limestone, and other coming from local sources, the resulting PV Glass contains almost 100% local content - eligible to earn the Made in Indonesia title.

Why is Indonesia launching a new PV glass project?

The projects,which are designed to meet the growing demand for PV glass in the overseas market,will be launched by Indonesia Flat Photovoltaic Co.,Ltd,a wholly owned subsidiary of Flat Glass Group. The new investment is expected to expand its PV glass production capacity,especially in Indonesia,to reduce costs.

Can Indonesia become the world"s largest solar panel supplier?

Indonesia has the potentialto become one of the world's largest solar panel suppliers by utilising its reserves of quartz sand or silica sand its Minister of Investment/Head of Investment Coordinating Board (BKPM) Bahlil Lahadalia said on Friday.

Will Xinyi group build a second-largest glass factory in Indonesia?

He also mentioned that Xinyi Group is planning to build the second-largest glass factory in the world in Indonesia,second only to its main facility in China. It is expected that the factory will later make Indonesia one of the world's largest solar panel suppliers,he added. "We do not want Indonesia to advance in the nickel sector only.
