## Indonesian island solar panel manufacturer

Which is the largest solar panel factory in Indonesia?

As the first integrated solar cell and module manufacturing facility in the country, TMAI has an initial production capacity of up to 1 GW, making it the largest solar panel factory in Indonesia. The facility is also capable of producing some of the world's largest solar panels.

Will Indonesia build a solar panel factory in the Riau Islands?

"Our new factory will increase national production capacity to 3 GW so that it can later support the government's target of 300-400 GW in 2060," it stated, without providing further details. In mid-June, Indonesia and Singapore agreed to build a solar panel industry in the Riau Islands.

Is Longi launching a state-of-the-art solar panel manufacturing facility in Indonesia?

LONGi has officially launched a strategic project to establish a state-of-the-art solar panel manufacturing facility in Indonesia, in collaboration with Pertamina New & Renewable Energy.
