# Khartoum Energy Storage Charging Pile Equipment Company

I consider this a branch off the Parker 75 family tree. My reasoning is that the barrel and cap, while apparently different, can fit the very same section (fountain pen, felt-tip, ...

The Parker 75 family proved to be very popular and commercially successful line of writing instruments from Parker Pen Company. Although production was eventually shifted to ...

To the new Parker 75 collector, this great variety makes for quite an opportunity to start, however for the long-time collector, it makes the job of completing the collection more ...

Solid gold models On these pages are listed the various Parker 75s and Premiers made out of solid 14K or 18K gold. (Click on any image to view more information about that ...

In 1972 a few very special Parker 75 FPs were made out of titanium caps and barrels and even titanium nibs. Even more special was the plate mounted on the barrel and ...

Parker 75 Reference Updated: December 31, 2013 Change summary This project reflects my attempt to document the Parker 75 family of writing instruments, focusing on the ...

Sections The section of the Parker 75 fountain pen family underwent several changes during the course of its 30 years of production. These changes occurred with the ...

This web site deals with all things related to the Parker 75 family of writing instruments. My personal bias is primarily to the fountain pens, so that is mostly what you will ...
