
Kingston can send battery logistics site

Why is Kingston a global company?

Kingston has established manufacturing facilities around the world to meet the growing needs of the storage and memory market on a global scale.

How to safely pack and ship batteries?

To safely pack and ship batteries, it is important to follow guidelines that will protect your products. To avoid short-circuiting of batteries, packaging material is advised, such as blister packs and cushioning as well as outer packaging carefully selected.

How many locations does Kingston have?

Kingston operates 18 regional offices around the world, working with our distribution network in more than 175 locations. This level of availability through our worldwide network of distributors and resellers means we are there for you and our partners, wherever we're needed, whatever problem you need us to solve. Because we're Built on Commitment.

Why should you choose a trusted lithium battery supplier?

Li-ion batteries logistics is complex and highly regulated. This means it's essential to select a trusted supplier with the capabilities and knowledge to ensure your lithium batteries are properly handled throughout the supply chain. You need your batteries to arrive intact and on-time, to guarantee the continuity of your business.
