
Latest Base Station Power Supply in San Jose

Is San Jose a data center destination?

San Jose, the symbolic capital of Silicon Valley, is now ground zero in California's battle over how to govern the rise of data centers used to power artificial intelligence. The county seat of Santa Clara is touting its partnership with Pacific Gas & Electric, claiming the city is "the West Coast's premier destination for data center development."

Could data centers for AI triple San Jose's energy use?

Data centers for AI could nearly triple San Jose's energy use. Who foots the bill? | AP News
Data centers for AI could nearly triple San Jose's energy use. Who foots the bill? San Jose, the symbolic capital of Silicon Valley, is now ground zero in California's battle over how to govern the rise of data centers used to power artificial intelligence.

Should San Jose buy more power?

In San Jose, city energy officials say they are reluctant to procure additional power until they know which projects will actually be built. "We do not want to buy more power than we need," said panelist Lori Mitchell, director of San Jose Clean Energy, the city's publicly-owned electricity provider. "That's job No. 1."

Will California's data-center boom reshape the fight over electricity bills?

California's data-center boom is reshaping the fight over electricity bills, exposing a divide over whether these new customers will lower costs -- or drive them higher for everyone else. PG&E argues that adding large users like data centers can lower rates because fixed grid costs would be spread across more customers.

The City of San Jose; has struck an agreement with Californian utility Pacific Gas and Electric Company (PG& E) over transmission capacity, guaranteeing speed and certainty of power delivery for large energy ...
