
Lomé Foldable Container 40kWh

Japan Atomic Energy Agency Dec. 9, 2025 Topics Annual Report Japan Atomic Energy Agency 2025 Oct. 2, 2025 Topics Report on the IAEA General Conference Side Event! -Expanding ...

Many integral benchmark experiments with DT neutrons have been carried out for nuclear data verification for fusion nuclear design at JAEA FNS; 1. Simple benchmark ...

II. Overview of Integral Experiments at JAEA/FNS Two types of integral experiments for nuclear data verification with DT neutrons have been performed for 25 years ...

35 ???FNS ???DT?????????6Li(n,a)T197Au(n,g)198Au235U(n,fission)??? ...

MCNP analyses of the JAEA/FNS iron experiment with the MCNP code for JENDL-5 showed that neutron fluxes above 10 MeV and below 10 keV were different at most ...

We found ENDF/B-VIII.0 caused the following problems through our analyses of the iron insitu experiment at JAEA/FNS; 1) the neutron flux of 1 - 10 keV is overestimated more ...

Analyses of fusion integral benchmark experiments at JAEA/FNS with FENDL-2.1 and other recent nuclear data libraries

JENDL-4.0?JENDL-5???JAEA/FNS??? J-GLOBAL ?????????JST??? ...
