# Mbabane Mobile Energy Storage Container 120kW

WARP is 1.1.1.1, but better. In addition to encrypting your DNS requests, we leverage our global network of data centers and a more modern protocol to make your internet even faster.

To subscribe to WARP+Unlimited, you can purchase a subscription. The price for the subscription is located on the button at the bottom of the 1.1.1.1 app home screen.

WARP greatly improves the security of your Internet traffic by encrypting it before transmitting it over the Internet (even when you visit insecure websites).

WARP protects your traffic in much the same way as a VPN does, preventing Internet snoops from spying on what you do. Unlike a VPN, WARP is design to improve the quality of your ...

1.1.1.1 is Cloudflare's way of improving the quality of your Internet connection. 1.1.1.1 started as a free DNS resolver that sits between your device and the internet. A DNS resolver translates ...
