# Portugal Porto mobile energy storage charging station

Where can I find information on charging stations in Porto?

At each charging point, you'll find information on the type of electric charger and the price of a charging session for your electric vehicle. All information on charging station prices can be found under the operating instructions for the station in question, and in many cases, charging your vehicle is free of charge in Porto.

How do I use a public EV charging station in Portugal?

To use a public EV charging station in Portugal, follow these steps: Find a Station: Use apps like MOBI.E, Miiio, PlugShare, or Google Maps to locate the nearest available charger. Connect Your Vehicle: Plug in your EV using the compatible connector (Type 2 for AC, CCS or CHAdeMO for DC).

Who manages the EV charging infrastructure in Portugal?

Portugal's EV charging infrastructure is managed primarily by MOBI.E, the national charging network operator. The MOBI.E network integrates thousands of public charging stations operated by different Charge Point Operators (CPOs), ensuring nationwide accessibility.

What types of EV chargers are available in Portugal?

There are three main types of EV chargers available in Portugal: Normal Charging (AC, up to 22 kW): Ideal for overnight or long-stay charging. Fast Charging (DC, 50 kW): Great for a quick top-up during a journey. Ultra-Fast Charging (DC, 150 kW or more): Found on highways and at service stations, enabling rapid charging in 20-30 minutes.
