
Price quote for 40-foot solar-powered shipping containers used at Russian airports

How much does it cost to ship a container overseas?

The total cost to ship a container overseas depends on several factors: For smaller shipments, partial container shipping (LCL) is a cheaper alternative. Here's a breakdown of the average overseas shipping costs for both 20ft and 40ft containers by region: Shipping a 20 ft container can range from \$2,800 to \$15,600 depending on destination.

How much does a 40ft container cost?

Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859(USD) for 13 November, 2025. Between now and the end of the year, container shipping prices will likely remain soft particularly if the current ceasefire between Israel and Palestine enables more shipping traffic to flow through the Suez canal.

How much does shipping a 20ft container cost?

Shipping a 20ft container ranges from \$2,800 to \$15,600, and a 40ft container from \$1,865 to \$23,415, depending on the route. Partial container shipping (LCL) is a cost-effective option for smaller moves, averaging around \$1,600. Main cost factors include distance, volume, delivery method, and optional services like insurance, customs, or packing.

What is the difference between a 40ft and 20ft container?

For most container shipping, volume is the most important factor rather than weight. Larger moves will require a 40ft container whereas smaller ones might be able to get away with using a smaller 20ft container. (see more below for more on the size differences between the two)
