## Rabat backup uninterruptible power supply recommendation

What is an uninterruptible power supply (UPS battery backup)?

An Uninterruptible Power Supply (aka a UPS Battery Backup) protects vital connected equipment -- computers, servers, and telecommunications equipment -- from power outages. During an outage, that small UPS Battery Backup under your desk at work gives you enough time to save your spreadsheet and properly shut down your computer.

Do you need an uninterruptible power supply (UPS)?

A power failure is more than an inconvenience--it can knock out essential equipment for hours on end. If you have important electronics that have to keep running when the power's out, you'll need an uninterruptible power supply (UPS). Many smart devices have built-in battery packs, with modern laptops packing enough cells to last a whole day.

What is a good ups with a built-in backup battery?

A UPS with built-in backup batteries is essential for protecting your devices from power outages, surges, and other electrical disturbances. Whether you opt for the high-capacity APC Back-UPS Pro 1500VA or the compact and budget-friendly Vertiv Liebert PST5, each UPS on this list offers reliable protection and peace of mind.
