
Single-phase inverter shipments worldwide

How is PV inverter market segmented?

Based on phase, the PV inverter market is segmented into single phase and three phase. The three phase segment held 86% market share in 2024, owing to swift industrial development favored by commercialization throughout the emerging countries, along with considerable operational flexibility across various applications.

Who owns the global PV inverter market?

The top 10 PV inverter vendors, led by Chinese giants Huawei and Sungrow, controlled 81% of the global market. Huawei and Sungrow alone captured over 50% of the global share, thanks largely to their popular utility-scale inverters, reports the market analyst.

Which PV inverter vendors consolidated the market in 2024?

Joseph Shangraw, research associate at Wood Mackenzie, said: "Both vendors consolidated the market and achieved their highest ever market shares in 2024. Huawei delivered 176 GWac of PV inverters and extended its global lead with strong performances in China, Europe, Latin America and Africa.

What is the global solar PV inverter market like in 2023?

Global solar PV inverter*shipments grew by 56% in 2023 to 536 GWac, with China accounting for half of all shipments as the country's solar demand doubled in 2023, according to the latest analysis by Wood Mackenzie. The top 10 PV inverter vendors, led by Chinese giants Huawei and Sungrow, controlled 81% of the global market.

Global PV inverter shipments grew by 10% to 589 gigawatts alternating current (GWac) in 2024. Asia Pacific, led by China, accounted for nearly all global growth, while the ...

Global PV inverter shipments grew by 10% to 589 gigawatts alternating current (GWac) in 2024. Asia Pacific, led by China, accounted for nearly all global growth, while the US and Europe declined. In total, nine ...

The single phase PV inverter market represents a specialized segment within the global solar energy and photovoltaic systems industry, emphasizing residential and small ...

One of the primary growth factors for the single-phase solar inverter market is the increasing emphasis on renewable energy adoption worldwide. As countries strive to meet ...

One of the primary growth factors for the single-phase solar inverter market is the increasing emphasis on renewable energy adoption worldwide. As countries strive to meet their carbon ...

In 2024, global solar PV inverter shipments reached 589 gigawatts alternating current. Since 2018, inverter shipments worldwide have increased by almost 480 gigawatts.

Report Scope The Single-Phase Solar Inverter market size, estimations, and forecasts are

provided in terms of output/shipments (K Units) and revenue (\$ millions), considering 2023 as ...

Global solar PV inverter* shipments grew by 56% in 2023 to 536 GWac, with China accounting for half of all shipments as the country's solar demand doubled in 2023, according to the latest analysis by Wood Mackenzie. ...
