## Sloped roof with solar panels

Hello all, I have a floor and I want to keep the bottom level as it is and create a slope in the upper level. From 40cm thickness that I have at the edges I want to have 60cm ...

I recreated the model in a new Revit file, and I followed the same steps to create the sloped glazing roof and curtain wall, and somehow the glass is visible this time.

Curved wall where Top face is sloped Need the ability to create a curved wall with the top face sloping. An idea on how these might work for an end user is to select your wall ...

Solved: I have bunch of parking space family being placed on the ramp, it is very time consuming, now I want to copy/paste to levels, but it gives me

Hi, I need to create a railing like that: For that purpose I've decided to use the sloped segment feature for railings Nevertheless, I've run into a trouble with a bottom rail ...

I have a sloped floor and I've placed a structural area reinforcement using it as the host. When I look at it in section view, the rebar stays horizontal instead of parallel to the floor ...

Hi guys, I'm designing sloped pipes and I make sure all my pipes have a slope of 0.5%. All goes well, but after a while when I go back to check on my previous work I notice ...

I am doing an architectural drawing of a movie theater in Revit LT 2019. There is a requirement to place a sloped wall along side rows of seats that slope down form around 48°; ...
