# Solar panel prices in El Salvador

How much does electricity cost in El Salvador?

El Salvador, June 2023: The price of electricity for households is USD 0.240 per kWh. The electricity price for businesses is USD 0.196 per kWh. This includes all components of the electricity bill such as the cost of power, distribution and taxes.

Can a solar savings estimate be misleading?

A solar savings estimate will be misleading if it assumes a solar system that will not even fit on your home. Our calculator automatically places panels on your roof and adjusts the production estimate to the tilt angle, azimuth and shading of the best location for each array of panels on your roof.

Is there a free online solar panel calculator?

As such it is the only free online solar panel calculator that properly accounts for the effects of time of use billing on solar savings. Most online solar panel calculators just estimate annual usage and production, ignore this complexity and give inaccurate results.

What is a NABCEP certified solar installer?

North American Board of Certified Energy Practitioners (NABCEP) is a non-profit body trusted by the U.S. government to set the training and accreditation standards for solar installers nationwide. Using a NABCEP-certified installer is a mandatory requirement for many solar incentive programs throughout the country.
