By Sam Wigness | Dec 4, 2025 In the last year, nearly two-thirds of solar.com customers paired their solar panels with a home battery energy storage system (aka BESS). Why?

Is battery storage the future of energy?

The future of energy is here. Advanced battery storage solutions go beyond electricity storage. When combined with a solar system, it's an intelligent system that gives you unprecedented control over how you store and use electricity. The equation is simple: maximize your home's solar energy usage to minimize grid electricity purchases.

Can solar power be stored in a battery?

Existing solar systems typically have solar inverters, which change the DC power produced by panels to AC power that can be consumed in your home or exported onto the grid. But if you want to store that AC power in a battery, it needs to be inverted again to DC power.
