
South Sudan Power Plant Energy Storage Project

Does South Sudan have a solar power project?

South Sudan has taken a significant step toward renewable energy with the launch of its first major solar power project. The Ezra Group, a leading business conglomerate, has successfully developed and financed a 20-megawatt (MW) solar power plant along with a 14-megawatt-hour (MWh) Battery Energy Storage System (BESS).

Why is South Sudan launching a 20 MW solar power facility?

The inauguration of the 20 MW solar power facility in Gondokoro signifies a monumental leap forward for South Sudan's renewable energy sector. With this project, South Sudan becomes one of the few nations in Africa to harness solar energy on such a scale, showcasing its potential for sustainable development.

What projects are underway in South Sudan?

Plans are already underway for other projects like the government-owned Nisitu Solar Plant which will complement existing structures and enhance overall grid reliability. Ezra Construction & Development Group is dedicated to expanding renewable energy solutions across South Sudan.

What is Ezra group doing in South Sudan?

Ezra Group unveils a 20 MW solar power project in South Sudan, featuring 14 MWh battery storage. Join the renewable energy revolution!

Ezra Group, a South Sudan family-run conglomerate, on Monday announced the launch of a 20-MW solar power plant with a 14-MWh battery energy storage system in South ...

A public-private partnership in South Sudan has launched the country's first major solar power plant and Battery Energy Storage System (BESS) in the capital Juba, where it is expected to provide electricity to ...
