
Victoria Photovoltaic Energy Storage Container Fast Charging

What is the first battery energy storage project in Victoria?

The first battery energy storage project has been approved under the Victorian government's streamlined renewable energy planning process, with the state signing off on a 350 MW /700 MWh project being developed by AC Energy in the Wimmera region.

Is Australia launching a 400MW battery energy storage system?

Australia's Victoria government has fast-tracked a 400MWh battery energy storage system (BESS) and 500MW solar-plus-storage project via its Development Facilitation Program (DFP). Developer Mint Renewables is developing the 200MW/400MWh Dederang BESS in northeast Victoria, near the town of Dederang, located on the Kiewa Valley Highway.

What is Victoria's "largest" energy project?

The Mortlake Energy Hub becomes another large-scale energy project to have been fast-tracked through the Victoria government's new scheme. As covered by our sister site Energy-Storage.news in late August, AC Energy saw its 350MW/700MWh Joel Joel project fast-tracked, in what will be the state's "largest" BESS project.

Is Australia fast-tracking a 400MW solar-plus-storage project?

Australia's Victoria government has fast-tracked a 400MWh BESS and 500MW solar-plus-storage project for development consent.

One of Australia's biggest battery energy storage projects has powered up with renewables developer Equis Australia confirming that the 600 MW/1.6 GWh Melbourne ...

Victoria's clean energy transition is accelerating with the approval of a \$453 million Battery Energy Storage System (BESS) in north-east Victoria, backed by leading Chinese firm ...

The Victorian government announced the \$250 million (USD 167.7 million) Joel Joel battery energy storage project has been approved after just nine weeks in the planning ...

Victoria, Australia, is now home to a groundbreaking energy storage development that is set to redefine the landscape of renewable energy. The installation of a massive \$450 ...

The 360MW Mortlake solar-plus-storage project in Victoria, Australia, has been fast-tracked for development by the state government.

The Victorian government announced the \$250 million (USD 167.7 million) Joel Joel battery energy storage project has been approved after just nine weeks in the planning assessment pipeline. It is the first ...

The Victoria government in Australia has approved a 300MW/1,200MWh BESS in Gippsland and a 332MW solar PV power plant with integrated storage.

The Victoria government in Australia has approved a 300MW/1,200MWh battery energy storage system (BESS) in Gippsland and a 332MW solar PV power plant in the state's ...
