
Wellington New Energy Storage Module

What is the Wellington Stage 1 battery energy storage system?

The Wellington Stage 1 Battery Energy Storage System (or BESS) will have a capacity of 300 megawatts and store 600 megawatt-hours of energy and is expected to start working in 2026. Once running, this battery will help make renewable energy more reliable and affordable for homes and businesses, especially as more industries need clean power.

Will Ampyr Australia build a big battery system in Wellington?

The digital version of This Week's Paper AMPYR Australia has secured full funding to build a big battery system in Wellington. The Wellington Stage 1 Battery Energy Storage System (or BESS) will have a capacity of 300 megawatts and store 600 megawatt-hours of energy and is expected to start working in 2026.

Who is delivering the Wellington Stage 1 BESS?

The Wellington Stage 1 BESS will be delivered by energy storage and software company Fluence, using its advanced Gridstack grid-scale energy storage product.

Where will the Bulabul battery connect to the Transgrid Wellington substation?

The Bulabul Battery is adjacent to and will connect to the Transgrid Wellington substation. The Transgrid Wellington substation is a key point on Transgrid's 330kV transmission network, connecting renewable energy resources with electricity consumers across NSW.

AMPYR Australia has obtained over A\$340 million (\$221 million) in funding for its 300MW/600MWh Wellington Stage 1 battery energy storage system (BESS) in regional New South Wales, Australia.

This is the first battery we have contracted in New South Wales, and our share of Wellington Stage 1 is big enough to double the size of the customer volume we serve." The Wellington Stage 1 BESS will be ...

This is the first battery we have contracted in New South Wales, and our share of Wellington Stage 1 is big enough to double the size of the customer volume we serve." The ...

A mega-battery project in NSW is moving ahead. Construction is set to begin on the first stage of the Wellington Battery Energy Storage System [BESS] in Central West NSW. The advance follows the ...

7/8/2025 Fluence Chosen for 300 MW/600 MWh Wellington Battery Energy Storage System
The project will include the full suite of Fluence's innovative storage products, including Gridstack(TM)

Project Overview AMPYR is developing the Bulabul Battery in Wellington, Central West New South Wales, to support Australia's transition to a cleaner, more reliable energy future. Bulabul Battery (formerly the Wellington ...
